Notes about the Author: My name is Richie Summerville and this is the eighth year that I have calculated the RPI for Division One women's basketball and sixth for the WBCA. I work for ESPN Radio 1310 in Virginia Beach, Virginia where I am the producer for the Old Dominion Lady Monarchs Radio Broadcasts. Great thanks go to Lady Monarchs head coach Wendy Larry who gave me the inspiration to start this and I hope those of you viewing these pages find the information useful.

Sincerely  
Richie Summerville

## WBCA/Summerville RPI Notes for December 2, 2002

I thought I would attach some notes to this first RPI of the season or the “Early Peek” as I titled it. The main reason I have done this is that when you look at the rankings this early there are going to be some odd looking results. The first one that will be obvious is that Tennessee is ahead of Duke when Duke beat the Lady Vols in their second game. Remember the RPI uses strength of schedule, as it’s main factor. This early in the season the schedule strength has not had time to develop. If your favorite team(s) is not where you think they should be, just give the season a chance to get some more games in and the rankings will take a more realistic shape. Things will change and they will change very fast.

That may lead some to ask, “Why do this at this time?” I’m sure some people are curious to see how it looks and I’m one of them. Besides I have fun doing this. I think the conference rankings on page 10 are a little more relevant so be sure to check those out.

On another note, there were 243 games in the last 3 days involving division one teams. I try to double-check all the results and I found that some of the finals reported on various Internet pages were backwards. I found in one place where the Georgia Tech victory over Miami-Ohio was reported as a win for Miami. I found 4 of these of errors over the holiday weekend. If something looks wrong don’t hesitate to send me an e-mail ([rsummerville3@cox.net](mailto:rsummerville3@cox.net)) and let me know. Just remember that the RPI rankings reflect division one games only. The total record can be found on the standings pages.

In the future reports I will be changing the look of the pages with the head to head conference records to make it easier to read.

A statistic to pass along. Home teams have won 69.4% of the games.

OK hope everyone had a good Thanksgiving.  
Richie Summerville

WINNING PCT. (Part One) = 25% of RPI [Games played against non-division-one teams are excluded.]

SCHEDULE STRENGTH or OPPONENTS WINNING PCT. (Part Two) = 50% of RPI

OPPONENTS SCHEDULE STRENGTH or OPP/OPP WINNING PCT. (Part Three) = 25% of RPI.

This version of the RPI makes no adjustment for deducting a team's record from its schedule strength.

The premise here is that any team is inescapably

a part of its opponents' cumulative schedules. Not all RPI calculations respect this premise

The Conference RPI is calculated using all division one games except those played against independents. This ranking is used to compare conferences. Since independents, by their own circumstances, are not part of a conference and not officially combined as a group their games cannot be used. Games played by conference members that are not counted in the league standings are not used in this calculation. The complete non-conference record is shown above.
