Notes about the Author: My name is Richie Summerville and this is the eighth year that I have calculated the RPI for Division One women's basketball and sixth for the WBCA. I work for ESPN Radio 1310 in Virginia Beach, Virginia where I am the producer for the Old Dominion Lady Monarchs Radio Broadcasts. Great thanks go to Lady Monarchs head coach Wendy Larry who gave me the inspiration to start this and I hope those of you viewing these pages find the information useful.

Sincerely  
Richie Summerville

WINNING PCT. (Part One) = 25% of RPI [Games played against non-division-one teams are excluded.]

SCHEDULE STRENGTH or OPPONENTS WINNING PCT. (Part Two) = 50% of RPI

OPPONENTS SCHEDULE STRENGTH or OPP/OPP WINNING PCT. (Part Three) = 25% of RPI.

This version of the RPI makes no adjustment for deducting a team's record from its schedule strength.

The premise here is that any team is inescapably

a part of its opponents' cumulative schedules. Not all RPI calculations respect this premise

The Conference RPI is calculated using all division one games except those played against independents. This ranking is used to compare conferences. Since independents, by their own circumstances, are not part of a conference and not officially combined as a group their games cannot be used. Games played by conference members that are not counted in the league standings are not used in this calculation. The complete non-conference record is shown above. The Conference RPI Average is the average of all RPI's within a given conference. This ranking is provided to show a contrast between that and the Conference RPI.
