Notes about the Author: My name is Richie Summerville (Clarion University of PA - Class of 1990) and this is the ninth year that I have calculated the RPI for Division One women's basketball and sixth for the WBCA. I work for ESPN Radio 1310 in Virginia Beach, Virginia where I am the producer for the Old Dominion Lady Monarchs Radio Broadcasts. Great thanks go to Lady Monarchs head coach Wendy Larry who gave me the inspiration to start this and I hope those of you viewing these pages find the information useful.

Sincerely
Richie Summerville

WBCA/SUMMERVILLE RPI

December 4, 2003

Hello everyone. Welcome to another season of our RPI venture. Last year with the first RPI I wrote a small introduction and thought it necessary to do it again. The first versions of the RPI can look a little strange and this year there is no different.

For the first time that I can recall we have a team ranked very high that has lost one game that does not count in the RPI rankings. As many of you know, win or lose, games played against non division one schools don't count in the RPI. They are just ignored as if they didn't happen. In the case of Clemson you will note they lost in the Great Alaska Shootout championship game to the host school Alaska-Anchorage. However the Lady Tigers have won three games against very good teams. South Carolina, Brigham Young, and Rutgers. So the RPI sees this as a 3-0 record where the rest of the real world notes a 3-1 team.

Some teams like Connecticut and Tennessee who are the "traditional" top two teams in these rankings are not as high as you may expect. UConn has not hit the tougher part of their schedule yet and Tennessee has only played two games. A number of teams have very good strength of schedules, at the moment, having played just a few games. One of the things this will do is make good early schedule, like Duke's for example, not rank as high as you think it should.

So what am I trying to say? If you see your team not ranked as well as you think they should be or another team ranked higher than normal, just wait. The early versions of this ranking are very volatile. They will change and adjust when some teams get more games in over this month. Let's remember that the important stuff comes in March but we need to start somewhere.

I worked on the RPI last night while watching my favorite movie for possibly the 100th time. What else could it be but "Hoosiers".

**Take care and have fun.
Richie Summerville**

WINNING PCT. (Part One) = 25% of RPI [Games played against non-division-one teams are excluded.]

SCHEDULE STRENGTH or OPPONENTS WINNING PCT. (Part Two) = 50% of RPI

OPPONENTS SCHEDULE STRENGTH or OPP/OPP WINNING PCT. (Part Three) = 25% of RPI.

This version of the RPI makes no adjustment for deducting a team's record from its schedule strength.

The premise here is that any team is inescapably

a part of its opponents' cumulative schedules. Not all RPI calculations respect this premise

The Conference RPI is calculated using all division one games except those played against independents. This ranking is used to compare conferences. Since independents, by their own circumstances, are not part of a conference and not officially combined as a group their games cannot be used. Games played by conference members that are not counted in the league standings are not used in this calculation. The complete non-conference record is shown above. The Conference RPI Average is the average of all RPI's within a given conference. This ranking is provided to show a contrast between that and the Conference RPI.
