Title:

Conference Championship in the First-Half-of-Season Calculation for Hardship Waivers in Team Sports (I)

Date Published: February 28, 2014

Type: Staff Interpretation

Item Ref: c

Interpretation:

The academic and membership affairs staff determined that, in team sports, a conference championship is counted as one contest or date of competition in determining the first half of the season for hardship waivers, regardless of the number of days or games involved in the championship. If the calculation is based on scheduled contests or dates of competition, the conference championship is counted as one contest or date of competition if it appeared on the institution's schedule prior to the first scheduled contest or date of competition; however, if the calculation is based on completed contests or dates of competition, the institution must have participated in the conference championship.
